BUOB Computer Training™ Virtual Classroom for MCTS: Microsoft SQL Server 2008

Implementation and Maintenance Certification Training

BUOB Computer Training's **MCTS 70-432 Training Course TS: Microsoft SQL Server 2008, Implementation and Maintenance** teaches students how to install and configure SQL Server 2008, maintain SQL Server instances and databases, manage SQL Server security, perform data management, optimize performance, monitor and troubleshoot SQL Server and implement high availability with SQL Server 2008.

When you pass Exam 70-432 TS: Microsoft SQL Server 2008, Implementation and Maintenance you complete the requirements for the following certification:

- Microsoft Certified Technology Specialist (MCTS): Microsoft SQL Server 2008, Implementation and Maintenance

Exam 70-432 also counts as credit toward the following certifications:

- MCITP: Database Administrator 2008

BUOB Computer Training offers you the most effective way to earn your Microsoft Certified Technology Specialist (MCTS). Developers holding the Microsoft Certified Technology Specialist: SQL Server 2008, Implementation and Maintenance certification have demonstrated the knowledge and skills necessary to work in environments in which SQL Server 2008 databases are central to their job roles.

As a Microsoft Certified Partner, BUOB Computer Training follows the approved Microsoft course curriculum, ensuring you receive the training and knowledge needed to succeed. BUOB Computer Training is so certain this course meets and exceeds the exam objectives, *we guarantee you will pass your exam!*

**If you fail the same exam covered by BUOB Computer Training's training on two (2) attempts within 180 days of purchase, a refund will be issued for the corresponding training package.*

COURSE OUTLINE

Course Outline

Installing SQL Server

- Services and Installation Process
- Installing SQL Server
- Module Review

Configuring SQL Instances

- Common Server Options
- Database Mail
- Module Review

Managing Databases

- Recovery Models
- Partitions
- Encryption and Compression
- Module Review

Disaster Recovery

- Backups and Restores
- Database Snapshots
- Module Review

Security

- Authorization
- Policies
- Database and Server Level Triggers
- SQL Server Auditing
- Module Review

Indexes

- Specialized Indexes
- Module Review
- Concurrency
- Monitoring Locks
- Module Review

Optimizing Performance

- SQL Server Profiler
- Data Collector
- Resource Governor
- Module Review
- Maintaining a SQL Server Database
- Automating SQL Tasks
- Maintenance Plans
- Importing/Exporting Data
- Module Review

High Availability

- Database Mirroring
- Log Shipping
- Replication
- Module Review
- Course Review and Exam Tips
- 70-432 Demo Scripts
